Subject Index to Volume 8

(ab.) = Abstract (E) = Editorial

Absorption

- intestinal, of sugars and amino acids, 137
- of vitamin B₁₂, sorbitol inhibitor of, 247
- mechanisms and malabsorption syndrome, symposium on, 131
- of vitamin B₁₂, effect of pseudovitamin B₁₂ on relation of binding power to intrinsic factor activity, 297
- patterns, radioactive fat, in obesity and coronary disease, 327

Abstracts, grouped by subject

- Amino acid food factors, 123
- Biochemical aspects of cholesterol and atherogenesis, 253
- Calcium metabolism, 778
- Dental caries, 385
- Dietary factors and experimental cancer, 257
- Growth and development, 782
- Hyper- and hypovitaminosis D, 784
- Insulin, oral agents and diabetes, 390
- Iron metabolism, 395
- Metabolic role of vitamin B₁₂, 779
- Metabolism of unesterified fatty acids, 122
- Reduction of serum cholesterol levels by dietary modifications, 120, 250
- Vitamin E, 903

Adipose tissue

- effects of composition of dietary fat, upon composition of, 209
- of insulin on, 666
- factors affecting fat mobilization from, 705
- concerned with regulation of fatty acid metabolism by, 733
- in man, studies of, 499
- in vitro*, metabolism of isolated, 719
- lipogenesis in, 651
- some hormonal influences on fat mobilization from, 691

Adolescent children, nutritional status of, 346

American Society for Clinical Nutrition, announcement of, 787

Amino acid food factors (ab.), 123

Amino acids

- intestinal absorption of sugars and, 137
- transport of, into and across cells, 131

Anemia, pernicious, studies in normal subjects and in patients with, disappearance of intravenously administered vitamin B₁₂, 259

Appetite in man, 569

Arteriosclerosis, lesion, 85

Ascorbic acid

- levels in blood and urine of man and dog, effect of D-glucuronic acid and D-glucuronolactone on, 369
- supplementation, response of certain blood constituents, 363
- response of gum tissue, 353

Atherogenesis, biochemical aspects of cholesterol and (ab.), 253

Atheroma, experimental, phosphatides in, 318

Atherosclerosis

- and diet (E), 206
- experimental, effects of sulfur compounds on hypercholesteremia and growth in cysteine-deficient monkeys, 491
- lipids in relation to, 95
- lipoproteins and lipotropes in, 332
- lipotropes and lipid metabolism, symposium on, 301
- patients with, lipid-induced coagulation changes in normal subjects and in, 34

Bile acids, nutritional influences on metabolism of, 462

Biosynthesis, cholesterol, and catabolism, regulation of, 411

Blood

- and urine of man and dog, effect of D-glucuronic acid and D-glucuronolactone on ascorbic acid levels in, 369
- cells, red, in relation to dietary intake of children, riboflavin in, 841
- trace metals in human plasma and, 846, 855
- cholesterol levels, infant-feeding practices and, 340
- coagulation and lipid metabolism, 1
- constituents, response of certain, ascorbic acid supplementation, 363
- of obese and lean subjects, non-esterified fatty acids in, 740

- Brazil, Amazon, some observations on nutritional status of medical students in, 870
- Calcium
- metabolism (ab.), 778
 - oxalate urolithiasis, excretion of urinary metabolites in, 812
- Cancer
- and obesity, susceptibility in mice, 760
 - experimental, dietary factors and (ab.), 257
- Caries
- dental (ab.), 385
 - incidence of, among school children in Bang Chan, Thailand, 231
- Catabolism, regulation of cholesterol biosynthesis and, 411
- Children
- riboflavin in red blood cells in relation to dietary intake of, 841
 - school, in Bang Chan, Thailand, incidence of caries among, 231
 - studies of vitamin A deficiency in, 833
 - Thai, dental survey of small group of, 240
- Cholesterol
- and atherogenesis, biochemical aspects of (ab.), 253
 - biosynthesis and catabolism, regulation of, 411
 - blood levels, infant-feeding practices and, 340
 - esters, serum, effect of safflower oil on nature of, 325
 - in experimental animals, lipotropic factors in transport of, 315
 - levels in man, effect of mixed fat formula feeding on serum, 808
 - in serum, reduction of (ab.), 120
 - in serum, reduction of by dietary modifications (ab.), 250
 - plasma, dietary fat and, 104
 - relationships, nutritional status of adolescent children, 346
 - serum, speculations concerning functions of, 72
 - synthesis and degradation of, by liver, effect of dietary fat on, 53
 - in liver, homeostatic control of, 645
- Cholesteryl ester, plasma, spectrum of rat, effects of essential fatty acid deficiency, and X-radiation on, 50
- Choline, mechanism of action of, 303
- Chromatography, fractions of human gastric contents, Co⁶⁰-Vitamin B₁₂ binding by, 512
- Chromium in human plasma and red blood cells, study of, 846, 855
- Coagulation
- blood, and lipid metabolism, 1
 - lipid-induced, changes in normal subjects and in patients with atherosclerosis, 34
- Cobalt isotopes, radiation comparison of, 276
- Copper in human plasma and red blood cells, study of, 846, 855
- Coronary disease, radioactive fat absorption patterns in obesity and, 327
- Cyanocobalamin zinc tannate, a repository vitamin B₁₂ preparation, 864

- Cysteine-deficiency, effects of sulfur compounds on hypercholesteremia and growth in monkeys, 491

Deficiency

- fatty acid, effects of essential, and X-radiation on plasma cholesteryl ester spectrum of rat, 50
vitamin A, in children, studies of, 833

- Degradation and synthesis of cholesterol by liver, effect of dietary fat on, 53

Dental

- conditions among children and adults, 231
survey of small group of Thai children, 240

- Diabetes, insulin, oral agents and (ab.), 390

Diet

- and atherosclerosis (E), 206
and health of group of African agricultural workers in South Africa, 875
effects on metabolism produced by rate of ingestion of, 682
planning low calorie, 896

- Dietary deficiency, serum vitamin B₁₂ concentration in, 374

- Dietary fat, effects of composition of, upon composition of adipose tissue, 209

- Dietary intake of children, riboflavin in red blood cells in relation to, 841

- Dietary surveys of children in Thailand, 231

- of Thai children in Australia, 240

Diet therapy

- interviewing the patient, 523
planning low calorie diet, 896
role of food and drug administration in nutrition, 377

- D-Glucuronic acid and D-Glucuronolactone on ascorbic acid levels in blood and urine of man and dog, effect of, 369

- D-Glucuronolactone on ascorbic acid levels in blood and urine of man and dog, effect of D-Glucuronic acid and, 369

- Drug administration in nutrition, role of food and, 377

Editorials

- diet and atherosclerosis, significance of exceptions that test the rule, 206

- forward to symposium on lipid metabolism, lipotropes and atherosclerosis, 301

- introduction to symposium on energy balance, 527

- introduction to symposium on lipid metabolism, lipotropes and atherosclerosis, 302

- late effects of early nutrition, 344

- panel discussion of symposium on absorption mechanisms and malabsorption syndrome, 201

- sequential analysis in nutrition studies, 112

- vitamin A nutrition and skin, 789

Energy

- balance, symposium on, 527
human, expenditure studies in metabolic chamber, 602

- utilization in farm animals, efficiency of, 614

- Excretion of urinary metabolites in calcium oxalate urolithiasis, 812

Fat

- dietary, and plasma cholesterol, 104

- effect of, on synthesis and degradation of cholesterol by liver, 53

- effects of composition of, upon composition of adipose tissue, 209

- emulsion, intravenous and intragastric, serum lipids in man after, 218

- formula feeding, mixed, on serum cholesterol level in man, effect of, 808

- mobilization activity of human urine extract, 728

- from adipose tissue, factors affecting, 705

- from adipose tissue, some hormonal influences on, 691

- radioactive absorption patterns in obesity and coronary disease, 327

- transport in man, heparin lipemia clearing reaction and, 21

Fatty acids

- deficiency, effects of essential, and X-radiation on the plasma cholesteryl ester spectrum of rat, 50
in hypercholesteremic dogs, antihypercholesteremic effect of essential, 68

- metabolism by adipose tissue, factors concerned with regulation of, 733

- non-esterified, in blood of obese and lean subjects, 740

- polyunsaturated, factors influencing requirements for, 403

- metabolism of, 55

- synthesis of, mechanism of, 630

- unesterified, metabolism of (ab.), 122

- unsaturated, and plasma lipids, 62

- Food and Drug Administration in nutrition, role of, 377

Food

- factors, amino acid (ab.), 123

- intake, hypothalamic control of gastric hunger contractions as component of mechanism of regulation of, 547

- nervous regulation of, 529

- nutrition and space traveler, 793

- Formula feeding, mixed fat, on serum cholesterol level in man, effect of, 808

Gastric

- contents, human, Co⁵⁷-vitamin B₁₂ binding by chromatographic fractions of, 512

 - on energy balance, 527
 - introduction to, 527
 - on lipid metabolism, 1
 - on lipid metabolism, lipotropes and atherosclerosis, 301
 - foreword to, 301
 - introduction to, 302
 - on role of vitamins and other nutrients in lipid metabolism, 403
 - on vitamin B₁₂, 259
- Syndrome
- malabsorption, classification of, 166
 - in man, 173
 - pathogenesis, 167
 - symposium on absorption mechanisms and, 131
 - obese hyperglycemic, in mice, metabolism of isolated adipose tissue, in vitro, 719
 - of mice as example of "metabolic obesity," 712
- Synthesis
- and degradation of cholesterol by liver, effect of dietary fat on, 53
 - cholesterol, in liver, homeostatic control of, 645
 - fatty acid, mechanism of, 630
- Thyroid: fundamental considerations, 77
- Triolein, I¹³¹-labeled, investigation of serum lipoprotein metabolism in man with, 44
- Tryptophan and vitamin B₆ administration, effect of, in excretion of urinary metabolites in calcium oxalate urolithiasis, 812
- Urine
- extract, human, fat-mobilizing activity of, 728
 - of man and dog, effect of D-glucuronic acid and D-glucuronolactone on ascorbic acid levels in blood and, 369
- Urolithiasis, calcium oxalate, excretion of urinary metabolites in, 812

Vitamin A

- deficiency in children, studies of, 833
- nutrition and skin (E), 789

Vitamin B₆

- and lipid metabolism in monkeys, 424
- and tryptophan administration, effect of, in excretion of urinary metabolites in calcium oxalate urolithiasis, 812
- serum lipids and placental arteriolar lesions in human pregnancy, 434

Vitamin B₁₂

- absorption by rat intestine, mode of action of intrinsic factor in, 293
- Co⁹⁰, binding by chromatographic fractions of human gastric contents, 512
- disappearance of intravenously administered, studies in normal subjects and in patients with pernicious anemia, 259
- distribution of, between plasma and cells, 283
- effect of pseudovitamin B₁₂ on absorption of, relation of binding power to intrinsic factor activity, 297
- in pregnancy and puerperium, 265
- metabolic role of (ab.), 779
- metabolic turnover of, in normal and diseased liver, 285

radioactive, by perfused rat intestine in situ, uptake of, 295

repository, preparation cyanocobalamin zinc tannate, 864

serum, concentration in dietary deficiency, 374
levels of, following intramuscular injection of depot preparation, 214

sorbitol inhibitor of intestinal absorption of, 247
symposium on, 259

Vitamin E

- (ab.), 903
- and lipid metabolism in man, 451
- relation of, to lipid metabolism, 445

Vitamins

- and other nutrients in lipid metabolism, symposium on, 403
- in lipid metabolism, role of, 321

Weight reduction, effective long term, 817

X-Radiation on plasma cholesteryl ester spectrum of rat, effects of essential fatty acid deficiency and, 50

Zinc in human plasma and red blood cells, study of, 846, 855
